Allen-Bradley Micro850 Demo Quick Start
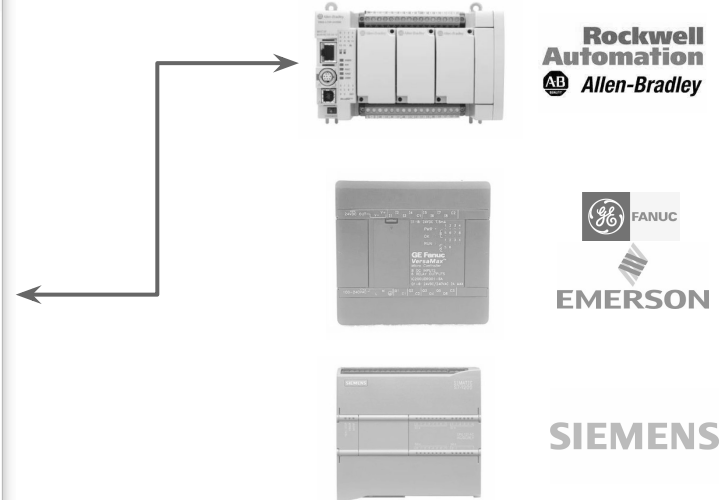

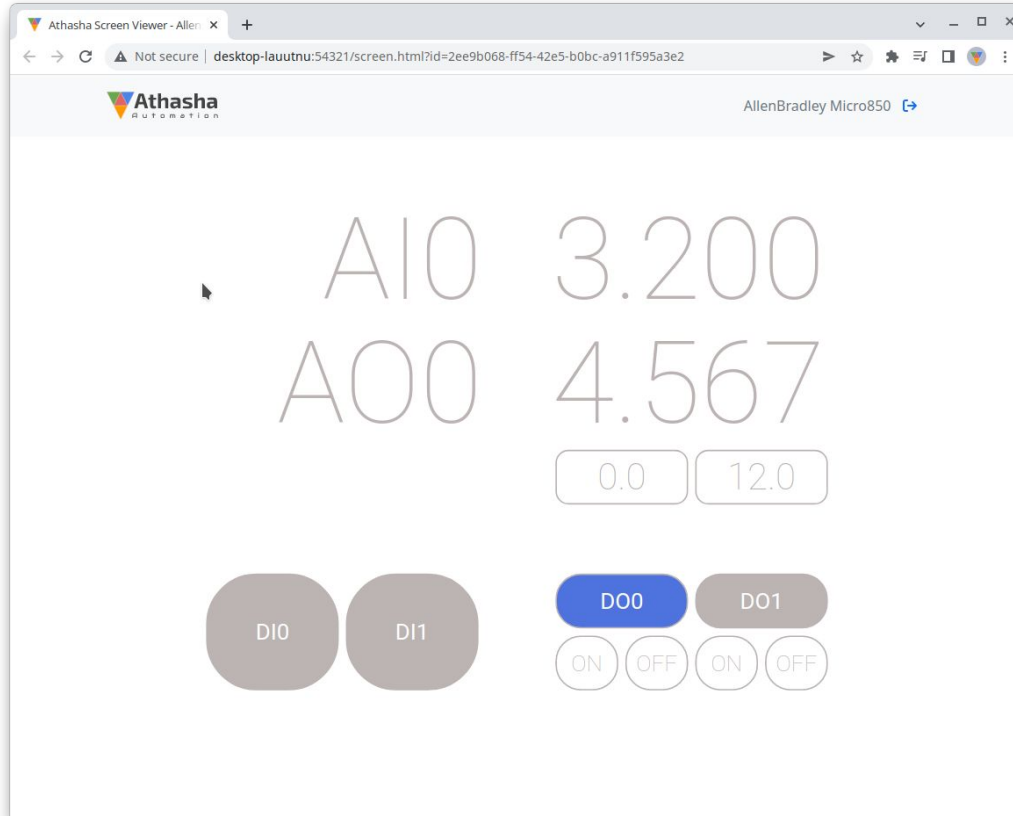

Four Steps to Load and Run the Demo

A

1. Download the demo backup from athasha.io/demo01
2. Click Restore Backup to load the demo backup file

B

1. Items will be blinking yellow and red because of invalid IP
2. Click Edit for item with yellow MB icon as shown in picture

C
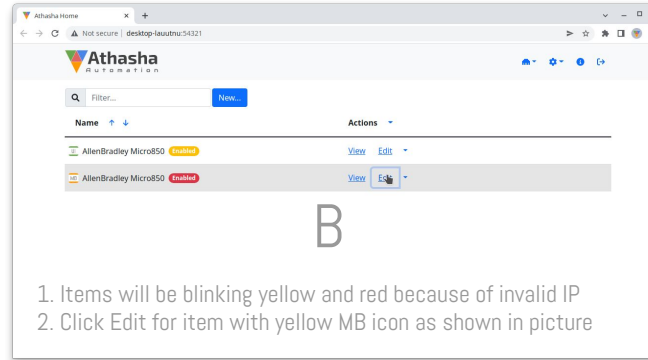

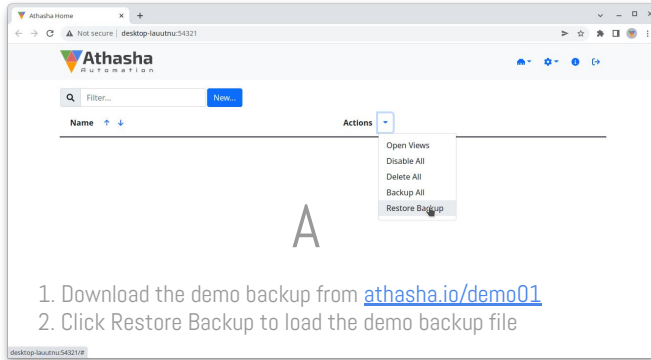

1. Adjust your IP
2. Click Save and Enable to apply changes
3. Click close to go back to the items listing

D

1. Both items should be green after a few seconds
2. Click View for the item with the green UI icon as shown in picture
3. Next slide shows the expected output

athasha.io
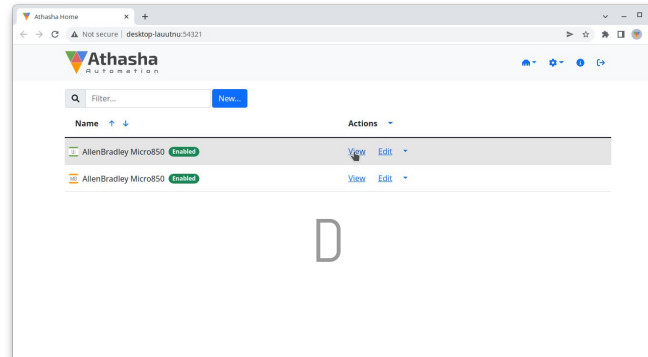

Congratulations! You completed the demo restoration process.
